

Borreliosis timeline

Burnout = CFS but clearly attributable to work with 3 symptoms of C. Maslach

Triad = 3 of neurological manifestations:

- meningitis (neck, brains, acute) → Curable to 60% normal life
- neuritis (inflamm. of org.) → Contain, no improvement, years hospital
- radiculoneuritis (nerve root) → Unless..

All very well testable – complaints and neuro measurements

CFS (often optic neuritis) → eg. MS, ME, fibromyalgia
